FUND DESCRIPTION

"The next generation internet"

Companies within EAAI are focused on and expected to benefit from shifting the bases of technology infrastructure to the cloud, enabling mobile and local services, such as companies that rely on, or benefit from the increased use of shared technology, infrastructure and services, internet-based products and services, new payment methods, big data, the Internet of Things, social distribution, and digital media.

INVESTMENT OBJECTIVE

EAAI is an actively managed ETF that seeks to achieve long-term growth of capital by investing primarily, under normal circumstances, in global equity securities of companies that are or, are expected to be, focused on artificial intelligence, big data, and the shift of technology infrastructure from hardware and software to the cloud.

WHY INVEST IN EAAI?

1. Exposure to innovation

Aims for thematic multi-cap exposure to innovative technologies, including: cloud computing, big data, digital media, e-commerce, and the Internet of Things (IOT).

2. Growth potential

Aims to capture long-term growth with a low correlation of relative returns to traditional growth strategies and negative correlation to value strategies.

3. Tool for diversification

Offers a tool for diversification due to little overlap with traditional indices. It can be a complement to traditional value/ growth strategies.

4. Grounded in research

Combines top-down and bottom-up research in its portfolio management to identify innovative companies and convergence across markets.

5. Cost-effective

Provides a lower-cost alternative to mutual funds with true active management in an Exchange Traded Fund (ETF) that invests in rapidly moving themes.
