FUND DESCRIPTION

“The financial transformation”

Companies within EAFT may develop, use, or rely on innovative payment platforms, point of sale solutions, e-commerce and transactional innovations, advancements in business analytics, fraud reduction, frictionless funding platforms, peer-to-peer lending, and risk pricing and pooling aggregators (insurance).

INVESTMENT OBJECTIVE

EAFT is an actively managed ETF that seeks to achieve long-term growth of capital by investing primarily, under normal circumstances, in global equity securities of companies that are or are expected to be focused on financial technology innovation, including the shift of the financial sector and economic transactions towards payment infrastructure platforms and technically enabled web-based intermediaries.

WHY INVEST IN EAFT?

1. Exposure to innovation

Aims for thematic multi-cap exposure to fintech innovations, including: mobile payments, digital wallets, peer-to-peer lending, and risk transformation.

2. Growth potential

Aims to capture long-term growth with a low correlation of relative returns to traditional growth strategies and negative correlation to value strategies.

3. Tool for diversification

Offers a tool for diversification due to little overlap with traditional indices. It can be a complement to traditional value/growth strategies.

4. Grounded in research

Combines top-down and bottom-up research in its portfolio management to identify innovative companies and convergence across markets.

5. Cost-effective

Provides a lower-cost alternative to mutual funds with true active management in an Exchange Traded Fund (ETF) that invests in rapidly moving themes.
