

EMERGE ARK
AUTONOMOUS TECH & ROBOTICS ETF

The investments of this fund may include: industrial innovation, robotics, drones, battery storage, electric vehicles, and autonomous vehicles.

FUND DESCRIPTION

"The new industrial revolution"

Companies within this fund are focused on, and are expected to, substantially benefit from the productivity of new machines and development of new products or services, technological improvements and advancements in scientific research related to, among other things, energy, automation and manufacturing, materials, transportation, and space exploration.

INVESTMENT OBJECTIVE

This actively managed seeks to achieve long-term growth of capital by investing primarily, under normal circumstances, in global equity securities of companies that are or are expected to be focused on the development of new products or services, technological improvements and advancements in scientific research related to disruptive innovation in energy, automation and manufacturing, materials and transportation.

WHY INVEST?

1. Exposure to innovation

Aims for thematic multi-cap exposure to innovative industrial elements, including: robotics, drones, battery storage, electric vehicles, and autonomous vehicles.

2. Growth potential

Aims to capture long-term growth with low correlation of relative returns to traditional growth strategies and negative correlation to value strategies.

3. Tool for diversification

Offers a tool for diversification due to little overlap with traditional indices. It can be a complement to traditional value/growth strategies.

4. Grounded in research

Combines top-down and bottom-up research in its portfolio management to identify innovative companies and convergence across markets.
