

FUND DESCRIPTION

“Artificial Intelligence & Next Generation Internet”

Companies within this fund are focused on and expected to benefit from shifting the bases of technology infrastructure to the cloud, enabling mobile and local services, such as companies that rely on, or benefit from the increased use of shared technology, infrastructure and services, internet-based products and services, new payment methods, big data, the Internet of Things, social distribution, and digital media.

INVESTMENT OBJECTIVE

This actively managed fund seeks to achieve long-term growth of capital by investing primarily, under normal circumstances, in global equity securities of companies that are or, are expected to be, focused on artificial intelligence, big data, and the shift of technology infrastructure from hardware and software to the cloud.

WHY INVEST?

1. Exposure to innovation

Aims for thematic multi-cap exposure to innovative technologies, including: next generation internet, artificial intelligence, deep learning, and big data.

2. Growth potential

Aims to capture long-term growth with a low correlation of relative returns to traditional growth strategies and negative correlation to value strategies.

3. Tool for diversification

Offers a tool for diversification due to little overlap with traditional indices. It can be a complement to traditional value/ growth strategies.

4. Grounded in research

Combines top-down and bottom-up research in its portfolio management to identify innovative companies and convergence across markets.
