FUND DESCRIPTION

“The new industrial revolution”

Companies within EAUT are focused on, and are expected to, substantially benefit from the productivity of machines and the development of new products or services, technological improvements and advancements in scientific research related to, among other things, energy, automation and manufacturing, materials, transportation, and space exploration.

INVESTMENT OBJECTIVE

EAUT is an actively managed ETF that seeks to achieve long-term growth of capital by investing primarily, under normal circumstances, in global equity securities of companies that are or are expected to be focused on the development of new products or services, technological improvements and advancements in scientific research related to disruptive innovation in energy, automation and manufacturing, materials and transportation.

WHY INVEST IN EAUT?

- 1. Exposure to innovation**
Aims for thematic multi-cap exposure to innovative industrial elements, including: robotics, drones, battery storage, electric vehicles, and autonomous vehicles.
- 2. Growth potential**
Aims to capture long-term growth with low correlation of relative returns to traditional growth strategies and negative correlation to value strategies.
- 3. Tool for diversification**
Offers a tool for diversification due to little overlap with traditional indices. It can be a complement to traditional value/growth strategies.
- 4. Grounded in research**
Combines top-down and bottom-up research in its portfolio management to identify innovative companies and convergence across markets.
- 5. Cost effective**
Provides a lower cost alternative to mutual funds with true active management in an Exchange Traded Fund (ETF) that invests in rapidly moving themes.
